### III. IMPORTANT NOTICES

A. Consolidated Subprograms and Components: Due to severe reductions in revenue estimated to be available to the Support Fund in FY 2016-17, budgeted funding levels are significantly lower across the Support Fund and several subprograms have been consolidated, as follows:

1. Undergraduate Enhancement, a subprogram available only to campuses with two or fewer doctoral programs, has been combined with Traditional Enhancement.
2. Pilot Funding for New Research (Pfund), a one-year opportunity for faculty whose research will likely be competitive for federal funds in the immediate future, has been absorbed into the Research Competitiveness Subprogram (RCS).
3. The Proof-of-Concept/Prototyping Initiative, supporting projects with near-term potential for transfer to the marketplace, has been added to the Industrial Ties Research Subprogram (ITRS).
4. Supervised Research Experiences for Undergraduates (SURE) activities are now encouraged as part of Traditional Enhancement projects.

See applicable requests for proposals for details about consolidations, eligible activities, and other information.

B. Availability of LOGAN Notice of Intent/Proposal Submission Modules: Submission modules for all programs/subprograms/components will be available in LOGAN by July 26, 2016. Potential applicants should consult the appropriate RFP(s) for instructions to access the system. Note that LOGAN submission modules will close

immediately following the appropriate deadlines published in the RFPs. No submissions may be completed or changes made after published deadlines, and no extensions may be granted.

- C. Endowed Chairs RFP: Provisions in the Endowed Chairs policy (revised September 2013) to limit eligibility for campuses with high long-term vacancy rates are in effect. Campuses planning to develop proposals should consult the policy for information on how vacancy rates are calculated.
