

PILOT FUNDING FOR NEW RESEARCH (Pfund)

FY2014-15 Request for Proposals

DEADLINE DATES:

Last day for questions and answers about this RFP: **June 5, 2014**

Proposals due: **June 12, 2014**

RFP ISSUE DATE: **April 22, 2014**

LA EPSCoR

LOUISIANA EXPERIMENTAL PROGRAM TO STIMULATE COMPETITIVE RESEARCH (EPSCoR)

Supported by:

**The National Science Foundation and the
Louisiana Board of Regents**

1201 North Third Street, Suite 6-200

Baton Rouge, Louisiana 70802

(225) 342-4253

www.laregents.org

I. Program Description

I.A. Overview

This RFP is being issued in anticipation of authorization from the National Science Foundation (NSF) for fifth-year continuation of Louisiana's NSF EPSCoR Track-1 research improvement award. Louisiana EPSCoR solicits seed-grant science and engineering (S&E) research proposals from the State's tenured and tenure-track faculty members seeking funding to demonstrate an innovative or novel concept that can result in attracting federal funds. The Pfund program will be administered through the BoR's Office of Sponsored Programs and will operate under the guidance of the State's EPSCoR Committee.

I.B. Objectives

Louisiana EPSCoR has designed the Pfund program to stimulate and support faculty in their exploration of novel science and engineering research. The Pfund program provides opportunities for both tenured and tenure-track faculty.

- **Untenured, but tenure-track faculty** can use the seed funding made available by this program to sharpen their research focus and develop cutting-edge techniques.
- **Tenured faculty** can use award funds to demonstrate an innovative or novel concept and become more competitive by investigating new areas that require a shift in their current research direction.

The ultimate goal of the Pfund program is to enable faculty to submit more competitive federal proposals, particularly to NSF. As such, this program is limited to the science and engineering research disciplines supported by NSF. For more information about which disciplines are supported by NSF please visit: <http://www.nsf.gov/funding/aboutfunding.jsp>. Reviewers will evaluate the merit of each proposal based in part on the potential of the investigator to enhance his/her research competitiveness in order to secure federal funds.

I.C. Financial Considerations

The BoR will provide up to \$10,000 per award for this program in fiscal year (FY) 2014-15. The number of awards is subject to the availability of funds and the quality of proposals received.

Charges for tuition, salaries (faculty, postdoctoral researchers, or research associates), and indirect costs are **not** allowable expenses; award dollars may be used, for example, to support students, travel, and the purchase of scientific equipment and supplies. Any scientific equipment requested must have a strong justification included in the project description. Cost sharing is not required.

Funds will be made available by contract from the BoR to the Principal Investigator's (PI) institution. The expected start date is 1 October 2014, pending continuation authorization from NSF. Contracts will have a duration of twelve months. Proposers are advised that the current NSF EPSCoR award under which this program is funded has a

termination date of 30 September 2015; thus, no-cost extensions will not be possible unless the termination date of the NSF EPSCoR award is changed, which does not appear likely.

I.D. Eligibility

Individuals who hold a regular tenured or tenure-track position at any Louisiana public institution of higher education, or at any Louisiana higher education institution that is a member of the Louisiana Association of Independent Colleges and Universities, are eligible to apply. Pfund awards are usually single-investigator. While co-PIs are allowable, one and only one individual must be listed on the cover sheet as principal investigator. An individual may submit only one proposal in response to this RFP. Individuals who received Pfund awards in **last year's** FY2013-14 competition (i.e., Pfund contracts with a start date of 1/1/2014) are **not** eligible for this round of funding. Individuals who received Pfund awards in the FY2012-13 or earlier competitions **are** eligible for this round of funding.

I.E. Timetable

April 28, 2014	LOGAN Pfund proposal module available to submit proposals
June 5, 2014	Last day to answer questions concerning this RFP
June 12, 2014	Proposals due at the BoR
June – Sept. 2014	Proposal review
October 1, 2014	Expected start date of awarded projects

I.F. Deadline for Submission of Proposals

The **deadline** for receipt of proposals on the BoR server is **4:30 p.m. Thursday, June 12, 2014**. *Proposals must be submitted electronically; the BoR will not accept hard copy submissions.* Failure to meet this deadline will invalidate the submission.

I.G. Reporting

Successful applicants will be required to submit a final report, due at the completion of the contract term. In addition, a follow-up report will be required one year after completion of the project to help assess the efficacy and impact of the Pfund program. Failure of an awardee to comply with these requirements will result in declination of future LA EPSCoR awards to that individual until such time the delinquent report is received.

II. Proposal Submission and Format Requirements

The following proposal requirements must be followed closely. *Proposals that do not adhere to these guidelines will not be considered.*

II.A. General Requirements

The applicant is responsible for any misunderstandings that occur because of incorrect proposal assembly and delivery to the BoR. The proposal submission system is programmed to close at the deadline cited in Section I.F. Note that submission

deadlines are absolute and that all campus work on the application, including final approval and submission to the Board of Regents by the designated campus office, must be completed on or before the deadline date and time.

II.A.1 Electronic Submission

The proposal must be submitted to the Board of Regents by the submitting institution's authorized representative. **Proposals directly submitted to the Board of Regents by individual PIs will not be accepted.** All online submissions must be uploaded as a single PDF document through the LOGAN system.

Instructions for PIs:

1. Go to URL: <https://laregents.org/cgi-bin/logan/home>.
2. Login using your LOGAN credentials.
 - a. If you are new user and do not have a LOGAN login, please click on "New user registration" to register.
 - b. If you have logged into LOGAN before and have forgotten your credentials please send an email to support@laregents.org.
3. After logging in, click on "Pfund Proposals" and use the provided online form to select and upload the PDF document.
4. If upload is successful, send the proposal to your sponsored programs office by clicking the "Send Proposal to OSP/OSR". A proposal number will be assigned after the proposal is successfully sent to the PI's Office of Sponsored Programs/Research.
5. An email confirmation will be sent to the PI with the proposal number.
6. The OSP/OSR will review the proposal, and, if approved, send the proposal to the Board of Regents.

Instructions for the OSP/OSR:

1. Go to URL: <https://laregents.org/cgi-bin/logan/home>.
2. Login using your Institutional credentials.
3. Select "Pfund Proposals".
4. Follow simple onscreen instructions to submit the proposal to the Board of Regents, EPSCoR office.
5. An email will be sent to both the PI and the OSP/OSR to confirm successful submission of the proposal.

If **both** the PI and the OSP/OSR do not receive confirmation emails within 12 hours, the proposal was not received. Please contact Karthik Poobalasubramanian by phone at (225) 342-4253 or by email at support@laregents.org.

II.A.2 Format Requirements

The Project Description section must be clear, readily legible, and conform to the following requirements (which are identical to NSF proposal preparation requirements):

- must be formatted to a standard 8-1/2" x 11" page
- all pages are to be numbered consecutively
- Margins, in all directions, must be at least an inch
- No more than six lines of text within a vertical space of one inch

One of the following typefaces identified below must be used:

- Arial, Courier New, or Palatino Linotype at a font size of 10 points or larger
- Times New Roman at a font size of 11 points or larger
- Computer Modern family of fonts at a font size of 11 points or larger

A font size of less than 10 points may be used for mathematical formulas or equations, figure, table or diagram captions and when using a Symbol font to insert Greek letters or special characters. Pls are cautioned, however, that the text must still be readable.

These format requirements refer only to the Project Description, not to the required forms attached to this RFP.

II.B Proposal Components (must be compiled in the order given below)

II.B.1 Cover Page (Use attached form.) Note: list of prospective reviewers must immediately follow the Cover Page.

II.B.2 Summary

A 200-word summary of the proposed activity is required.

II.B.3 Project Description

The project description, not to exceed five (5) pages, including all tables, graphs, charts, and other graphic material, should:

- Describe the significance of the project relative to research in its general field;
- Provide a statement of work, listing the major research tasks to be carried out, a timeline for accomplishing the tasks, and expected outcomes;
- (For tenure-track faculty) Explain how the project will help the investigator sharpen his/her research focus and/or develop cutting-edge techniques that can enable the investigator to become more competitive in obtaining federal funding;
- (For tenured faculty) Explain how the project will help the investigator develop innovative or novel concepts and pursue new areas of research that require a shift in their current research focus to become more competitive for federal funding; and
- Describe the potential impact of the project in securing federal funding, e.g., planned proposal submissions that could result from the work.

As part of the evaluation process, reviewers will assess the potential of both the investigator as well as the project to secure federal funding.

II.B.4 References Cited

References Cited are not considered part of the five-page project description.

II.B.5 Budget and Budget Narrative – Use attached budget form

A summary budget covering the award period is required. A one-page budget justification/explanation must also be included.

II.B.6 Biographical Sketches – Use attached form or NSF form

Biographical sketches of the Principal Investigator (PI) and any collaborators are required and must not exceed two pages each.

II.B.7 Current and Pending Support – Use attached form or NSF form

Current and Pending Support forms for the PI and any collaborators are required.

II.B.8 Facilities, Equipment, and other Resources – Use attached form or NSF form

Do not exceed one page.

II.B.9 Letters of Support

Letters of support may be included at the end of the proposal.

III. Questions About This RFP

Specific questions concerning this RFP and the requirements set forth herein should be directed **in writing** to Mr. Jim Gershey, Executive Director of Special Programs, by sending an email message to jim.gershey@la.gov. Questions will be accepted and answered **through June 5, 2014**. A running compilation of all questions asked about this RFP and all answers provided in response to those questions will be periodically posted on the BoR website at <http://laregents.org>.

COVER SHEET FOR PROPOSAL TO THE BOARD OF REGENTS

FOR CONSIDERATION BY BoR ORGANIZATION UNITS(S) LOUISIANA EPSCoR		FOR BoR USE ONLY BoR PROPOSAL NUMBER	
PROGRAM ANNOUNCEMENT/SOLICITATION NO./CLOSING DATE PFUND FY2014-15/June 12, 2014		Institution's Proposal ID (optional)

APPLICANT MUST PROVIDE NAMES OF PROSPECTIVE REVIEWERS – SEE BELOW:

On a separate page immediately following this cover sheet, provide the name, title, affiliation, mailing address, telephone number, and e-mail address for at least five out-of-state scholars from the U.S. in the specific field of your proposal who are qualified to evaluate your application and/or who can recommend other individuals who are qualified to evaluate your proposal. Names of potential reviewers from institutions where the applicant has taught or was a student should not be provided.

Conflict of Interest Criteria:

Reviewers cannot 1) have been a Louisiana faculty member during the previous five years; 2) have collaborated on a publication, funded project, or as a paid consultant with the applicant during the past five years; or 3) have supervised the master's thesis, doctoral candidacy, or post-doctoral work of the applicant.

Total Other Direct Costs	
H. TOTAL DIRECT COSTS (A thru G)	

BIOGRAPHICAL SKETCH

Provide the following information for the senior personnel on the project. Begin with the Principal Investigator/Project Director.
DO NOT EXCEED 2 PAGES PER PERSON.

- A. Vitae, listing professional and academic essentials and mailing address.
- B. List up to 5 publications most closely related to the proposed project and up to 5 other significant publications, including those being printing. Patents, copyrights, or software systems developed may be substituted for publications. Do not include additional lists of publications, invited lectures, etc. Only the list of up to 10 will be used in merit review.
- C. List of persons, other than those cited in the publication list, who have collaborated on a project or a book, article, report or paper within the last 48 months, including collaborators on this proposal. If there are no other collaborators, please indicate that fact.
- D. Names of graduate and post-graduate advisors and advisees.
The information in C. and D. is used to help identify potential conflicts or bias in the selection of reviewers.

FACILITIES, EQUIPMENT & OTHER RESOURCES

FACILITIES: Identify the facilities to be used at each performance site listed and, as appropriate, indicate their capacities, pertinent capabilities, relative proximity, and extent of availability to the project. Use "Other" to describe the facilities at any other performance sites listed and at sites for field studies. USE additional pages if necessary.

Laboratory:

Clinical:

Animal:

Computer:

Office:

Other: _____

MAJOR EQUIPMENT: List the most important items available for this project and, as appropriate identifying the location and pertinent capabilities of each.

OTHER RESOURCES: Provide any information describing the other resources available for the project. Identify support services such as consultant, secretarial, machine shop, and electronics shop, and the extent to which they will be available for the project. Include an explanation of any consortium/contractual arrangements with other organizations.

The following review forms will be used by the out-of-state reviewers for evaluation purposes. They are provided for your information only.

Pilot Funding for New Research (Pfund) Program

Proposal Evaluation Form for **TENURED Applicants**

Principal Investigator name: _____ PI Institution: _____

Instructions: Please read the RFP, the proposal, and all accompanying information carefully, then score the proposal, using the following criteria and point allowances:

Criteria	Points awarded
1. Does the proposed research project appear to be technically and scientifically sound? In particular, does the proposed research indicate a significant shift in the applicant's research focus? (50 points)	_____
2. Do the proposed research and supporting materials provide convincing evidence of the potential to attract federal funding, i.e., through future proposal submissions to federal agencies? (40 points)	_____ -
3. Are the budget, timeline, and infrastructure reasonable to ensure success? (10 points)	_____ -
4. Total Score (of a possible 100 points)	_____ -

Please provide constructive comments that can be relayed to the applicant. Use additional pages if necessary. (Your identity will be kept confidential.)

Example Only

Reviewer's Signature: _____ **Date:** _____

Printed Name: _____

By signing this form (or printing your name where indicated and returning this form electronically), you agree to maintain in confidence any information, documentation, and material of any kind (hereafter referred to as "Material") included in this proposal. You further agree not to divulge, publish, file patent application on, claim ownership of, exploit or make any other use whatsoever of said "Material" without written permission of the principal investigator. You also certify that, to the best of your knowledge, no conflict of interest exists or is created as a result of your review of this proposal. Consultant also certifies that he/she is not presently debarred, suspended, proposed for disbarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

Send form electronically to jessica.domingue@la.gov or by fax to 225-342-3371. Thanks!

**Pilot Funding for New Research (Pfund) Program
Proposal Evaluation Form for **TENURE-TRACK** Applicants**

Principal Investigator name: _____ PI Institution: _____

Instructions: Please read the RFP, the proposal, and all accompanying information carefully, then score the proposal, using the following criteria and point allowances:

Criteria	Points awarded
1. Does the proposed research project appear to be technically and scientifically sound? Will the proposed research significantly enhance the applicant's research focus, substantially advance the exploration of their new ideas, and/or enable them to become proficient in utilizing cutting-edge techniques? (50 points)	_____
2. Do the proposed research and supporting materials provide convincing evidence of the potential to attract federal funding, i.e., through future proposal submissions to federal agencies? (40 points)	_____
3. Are the budget, timeline, and infrastructure reasonable to ensure success? (10 points)	_____
4. Total Score (of a possible 100 points)	_____

Please provide constructive comments that can be relayed to the applicant. Use additional pages if necessary. (Your identity will be kept confidential.)
