

EPSCoR Consortium for Innovation in Manufacturing and Materials (CIMM) Seed Funding

Answers given by Board of Regents staff in response to questions in response to the Request for Proposals (RFP) as of **March 26, 2018**, which was the last day to answer questions.

Proposals Due: April 5, 2018

Question:

Should we provide letters confirming collaboration for relevant collaborations mentioned in a CIMM seed grant proposal?

Answer:

While a specific collaboration between the project goals and the CIMM team must be described as stated in the Proposal Format: Synergism, Diversity and Sustainability section of the RFP, formal letters of collaboration are not required.
