

...**ZOOM** WITH A SCIENTIST

To spark the interest of students in STEM professions, the Speaking of Science (SoS) program provides students in every type of school—urban and rural, poor and rich, public and private—exposure to the best researchers in Louisiana. Speakers are available **free of charge**.

Traditionally speakers have traveled to speak at schools. Now, SoS is excited to announce the addition of **video conferencing** events as a delivery option.

To schedule a speaker:

- 1 visit the SoS website to view our offerings
- 2 choose face-to-face or video conferencing
- 3 submit a request online at least two weeks in advance

1010
1010

Fulfillment of your request is dependent upon funding and availability of speakers. Not all program options are suitable for video conferencing.

Speaking of Science is funded by the National Science Foundation as part of the Louisiana Established Program to Stimulate Competitive Research (LA EPSCoR), a Louisiana Board of Regents sponsored program.
