

**REPORT TO THE
LOUISIANA BOARD OF REGENTS**

**ENHANCEMENT COMPONENT
OF THE BOARD OF REGENTS SUPPORT FUND**

ENDOWED TWO-YEAR WORKFORCE SCHOLARSHIPS

FY 2023-24 COMPETITION

March 2024

**Board of Regents Support Fund
Endowed Two-Year Workforce Scholarships Subprogram**

Competition for Matching Funds

March 2024

An external reviewer, Dr. Allatia Harris, Vice Chancellor of Strategic Initiatives, Workforce Development, Community Relations and Diversity at San Jacinto College, evaluated the proposals submitted in FY 2023-24 for matching consideration to the Board of Regents Support Fund Two-Year Workforce Scholarships subprogram. In addition to the proposals and scoring sheet, Dr. Harris was provided with the FY 2023-24 Request for Proposals (RFP) and subprogram policy.

Ten (10) institutions submitted a total of thirty (30) proposals in the Two-Year Workforce Scholarships subprogram. Proposals requested a combined total of \$1,240,000. Dr. Harris was advised that \$1,000,000 was budgeted for the current funding cycle.

Per the RFP, proposals were scored based on the degree to which they demonstrated the following:

- Quality of the targeted program(s) (25 points)
- Appropriateness of the targeted program(s) to Louisiana's workforce priorities (30 points)
- Performance of the targeted degree program(s) in fostering student success in training for the Louisiana workforce (30 points)
- Appropriateness of the targeted program(s) to the mission of the campus/college/department/unit and system, if appropriate (15 points)

After thorough assessment of the merits of each proposal, based on the goals of the subprogram and the scoring rubric provided, Dr. Harris established a rank order and provided funding recommendations along with brief summary reviews of each proposal. Recommendations are consistent with the funds budgeted.

The complete rank order of proposals submitted is included in Appendix A. The external reviewer recommends that twenty-six (26) proposals submitted under the Endowed Two-Year Workforce Scholarships subprogram be funded in the amounts specified in Table I. Table II provides a rank-order list, with scores, for proposals not recommended for funding. Appendix B consists of brief narrative assessments of submitted proposals and Appendix C contains a listing of all proposals submitted to the subprogram during FY 2023-24.

All applicants are reminded that the Board of Regents established the Endowed Two-Year Workforce Scholarships as a competitive subprogram. The RFP sets minimum required elements for the proposal as well as the scoring rubric for the competitive review; applicants are strongly encouraged to review this guiding document prior to submitting proposals. Applicants should provide all appropriate information and data to argue for the necessity for and impact of the provision of matching funds.

APPENDIX A

APPENDIX A

TABLE I: PROPOSALS RECOMMENDED FOR FUNDING

Rank	Proposal #	Campus	Scholarship Name	Match Requested	Quality of Targeted Program(s) (25 points)	Appropriateness to LA's Workforce Priorities (30 points)	Performancing in Training and Student Success (30 points)	Appropriateness to Mission (15 points)	Total Points (100 Points)	Funds Recommended
1	001EWS-24	Baton Rouge Community College	BRCC Construction Craft Two Year Workforce Endowed Scholarship	\$20,000.00	25	30	30	15	100	\$20,000.00
2	009EWS-24	Delgado Community College	Healthy Blue Endowed Two-Year Student Workforce Scholarship in Allied Health	\$30,000.00	25	28	30	15	98	\$30,000.00

APPENDIX B

**COMMENTS ON PROPOSALS SUBMITTED IN FY 2023-24 TO THE
BOARD OF REGENTS SUPPORT FUND
ENDOWED TWO-YEAR WORKFORCE SCHOLARSHIPS SUBPROGRAM**

Proposal #:	001EWS-24
Submitting Campus:	Baton Rouge Community College
Endowment Name:	BRCC Construction Craft Two Year Workforce Endowed Scholarship
Match Requested:	\$20,000

Program retention exceeds the institutional average. The proposal uses Fall 2022 - Fall 2023 data, which is particularly helpful in assessing the program's trajectory. Student support is well articulated. The efforts to "boost retention/graduation" are clear. Funding is recommended for the \$20,000 match.

Proposal #:	002EWS-24
Submitting Campus:	Baton Rouge Community College
Endowment Name:	The Sammie W. and Shirley A. Cospers Endowed Scholarship; The Credit Bureau of Baton Rouge Foundation Endowed Scholarship; The Chancellor Willie E. Smith Sr. Scholarships I and II
Match Requested:	\$100,000

Overall retention in the affected programs, particularly PTEC, is very good, though freshman retention is low. The faculty are strong. Both Computer Science Studies and PTEC are critical to business and industry in the region. Funding is recommended for the \$100,000 match.

Proposal #:	003EWS-24
Submitting Campus:	Baton Rouge Community College
Endowment Name:	Healthy Blue Endowed Scholarship in Health Sciences
Match Requested:	\$20,000

Retention data are strong. The program's growth is good for the region, though NCLEX pass rate information would have been a valuable to assess program quality and impact. The faculty and curriculum are sound, as is support at the institutional level. Funding is recommended for the \$20,000 match.

Proposal #:	004EWS-24
Submitting Campus:	Bossier Parish Community College
Endowment Name:	Louisiana Healthcare Connections Endowed Workforce Scholarship in Allied Health
Match Requested:	\$50,000

It is not clear why the proposal prioritizes Medical Assistant and Medical Office Specialist tracks, which lead to three-star jobs. While the original gift was from a healthcare provider that may itself need assistants and office specialists, these are not the four- and five-star opportunities for which this matching support was intended. Data indicate that many of the targeted programs have retention issues. While scholarships may help, other measures are needed to successfully address these problems. Perhaps such initiatives are already in place, but none are mentioned here. While funding of the \$50,000 match is recommended, the institution is urged to consider prioritizing four- and five-star areas in selecting scholarship recipients.

Proposal #:	005EWS-24
Submitting Campus:	Bossier Parish Community College
Endowment Name:	Citizens National Bank/John R. McConathy Endowed Workforce Scholarship in Business
Match Requested:	\$40,000

Retention in the business programs addressed in the proposal is reasonable. It is notable, however, that some programs mentioned for scholarship support are not prioritized areas in the EWS program. Funding of the \$40,000 match is recommended, but scholarship support should be limited to students in programs listed for support by the EWS program.

Proposal #:	006EWS-24
Submitting Campus:	Bossier Parish Community College
Endowment Name:	John & Joanna Magale Endowed Workforce Scholarship in Allied Health
Match Requested:	\$30,000

The completion rates in Allied Health are better than average for the institution but are still very low in some of the included programs. Industry partnerships are good and support arguments for workforce development. The goal of helping to offset the costs students incur during clinicals and other aspects of their education is admirable and needed, but the scholarship as designed will be available to all from the beginning of their studies. The proposal does not provide a statement of how BPCC expects to increase completion and the scholarship's contribution to this effort. Funding for the \$30,000 match is recommended.

Proposal #:	007EWS-24
Submitting Campus:	Bossier Parish Community College
Endowment Name:	Louisiana State Contractor's Licensing Board (LCLB) Endowed Workforce Scholarship in Construction Crafts
Match Requested:	\$20,000

While Construction Crafts skills are needed locally, regionally, and nationally, enrollment in these programs is low. Retention data are not included, and are essential for understanding program quality. BPCC's new facility is a promising addition, and may help to boost these needed programs. Funding is recommended for the \$20,000 match requested.

Proposal #:	008EWS-24
Submitting Campus:	Delgado Community College
Endowment Name:	Delgado-Charity Alumni Endowed Two-Year Student Workforce Scholarship
Match Requested:	\$150,000

This is a large funding request for a program that has shown good success and strong data. It is noted that numbers declined in AY 2022-23, which may be a result of COVID. Given demand for match in these programs, and to ensure smaller fundable requests can receive support, partial funding of \$100,000 is recommended. Delgado is encouraged to request the remaining \$50,000 match in a future funding cycle.

Proposal #:	009EWS-24
Submitting Campus:	Delgado Community College
Endowment Name:	Healthy Blue Endowed Two-Year Student Workforce Scholarship in Allied Health
Match Requested:	\$30,000

Delgado's Allied Health programs have good retention and completion rates, and very strong pass rates on licensing exams. Funding for the \$30,000 match is recommended.

Proposal #:	010EWS-24
Submitting Campus:	Fletcher Technical Community College
Endowment Name:	Construction Education Trust and John Deere Two-Year Endowed Scholarship
Match Requested:	\$20,000

The proposal is incomplete, lacking success data, an account of faculty qualifications, reference to mission alignment, and other required elements. Because the proposal does not meet minimum requirements, no funding is recommended.

Proposal #:	011EWS-24
Submitting Campus:	Louisiana Delta Community College
Endowment Name:	Barbara R. and Rickey L. Jones Health Science Scholarship
Match Requested:	\$20,000

These programs appear good, but retention data do not allow interpretation of program success as there is no way to compare percentages over time. Scores on licensing exams are good, however, and the programs are producing needed workers. No faculty information is provided. Funding is recommended for the \$20,000 match requested.

Proposal #:	012EWS-24
Submitting Campus:	Louisiana State University Eunice
Endowment Name:	Leonard G. Fontenot Family Scholarship 2
Match Requested:	\$10,000

LSUE's transfer rate is impressive. The proposal's description of tutoring and lab supports available to students is sound and shows a commitment to student success. Specific references to Louisiana's Star Jobs system and demand data are missing and would have strengthened the proposal. Funding is recommended for the \$10,000 match requested.

Proposal #:	013EWS-24
Submitting Campus:	Northshore Technical Community College
Endowment Name:	CLECO Endowed Scholarship in Electric Line Technology
Match Requested:	\$20,000

The outlook for employment in the targeted field is strong and this specialty is much needed in Louisiana. The curriculum and faculty are sound. Completion data show acceptable success. Funding is recommended for the \$20,000 match requested.

Proposal #:	014EWS-24
Submitting Campus:	Northshore Technical Community College
Endowment Name:	Jimmy Ryan, IV, Memorial Endowed Scholarship in Electrician
Match Requested:	\$20,000

This proposal is excellent, providing evidence of a strong faculty, curriculum, and student success outcomes. The proposal does not detail HOW the college supports success (providing accounts of support services, work-based learning, etc.), but performance data tell the story. Funding is recommended for the \$20,000 match requested.

Proposal #:	015EWS-24
Submitting Campus:	Northshore Technical Community College
Endowment Name:	Thomason Family Endowed Scholarship in Teacher Education
Match Requested:	\$60,000

This is a very strong proposal. The demand clearly exists in the workforce and NTCC is well positioned to make a strong contribution. The program curriculum and faculty are solid. Retention and success in the Early Childhood program should improve. Student supports that facilitate success are not described in the application and might bolster the case for funding. Nevertheless, funding for the \$60,000 match is recommended.

Proposal #:	016EWS-24
Submitting Campus:	Northshore Technical Community College
Endowment Name:	Virginia Weeks Memorial and Sullivan Vocational Foundation Endowed Scholarships in Registered Nursing
Match Requested:	\$140,000

This program is fairly new at NTCC, but the workforce need is strong. Success rates are preliminary, but so far appear to be good. The proposal is excellent, though could be bolstered by an account of support services provided to students to ensure retention and completion. Given the significant dollars requested, partial funding of \$100,000 is recommended to ensure that strong smaller requests can be supported. NTCC is encouraged to request the remaining \$40,000 match in a future funding cycle.

Proposal #:	017EWS-24
Submitting Campus:	Northshore Technical Community College
Endowment Name:	Sullivan Vocational Foundation and Thomason Family Endowed Scholarships Construction Trades
Match Requested:	\$180,000

These programs show good retention and completion rates and the faculty roster is strong. There is significant need in the workforce. Program curricula are appropriate. No references are made to student support provided to ensure success. The request for \$180,000 in matching is large, and this is the second proposal from the institution that includes electrical students. To ensure smaller requests can receive funding, partial funding of \$110,000 is recommended. NTCC is encouraged to request the remaining \$70,000 match in a future funding cycle.

Proposal #:	018EWS-24
Submitting Campus:	Nunez Community College
Endowment Name:	Boeing – Two Year Workforce Endowed Scholarship in Aerospace Manufacturing
Match Requested:	\$20,000

The proposal lacks many critical elements to support its match request. It does not mention faculty, alignment with institutional mission, or Louisiana’s Star Jobs system (in which the targeted field receives three stars). While this is clearly a quality program with good outcomes, the proposal does not include the required information. No funding is recommended.

Proposal #:	019EWS-24
Submitting Campus:	Nunez Community College
Endowment Name:	Nunez Community College Construction Craft Endowed Two Year Workforce Scholarship in Electrical Construction
Match Requested:	\$20,000

The growth in Nunez’s Electrical Construction program is excellent, but data indicate that program retention needs improvement. The faculty appear to be strong. Alignment with the program mission is clear, though links to the institutional mission are not referenced. Workforce demand is present, and partnerships seem solid. Funding for the \$20,000 match is recommended.

Proposal #:	020EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	Claire M. Moss Memorial Endowed Scholarship in Education
Match Requested:	\$20,000

Data on student success appear reasonable. However, since data are provided for all General Studies majors, though only a portion will select the targeted teaching track, numbers cannot be used to judge program performance relative to the proposal’s focus. The Education faculty, though a small number, are well qualified. Funding of the \$20,000 match is recommended.

Proposal #:	021EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	ExxonMobil Endowed Scholarship
Match Requested:	\$20,000

While it is clear in the proposal that there is a demand for the workers produced in this program, the scope of the program is nebulous. One faculty member is mentioned, but credentials are not provided, though administrators are described. It appears that retention is higher than average for the institution and four graduates are cited, but the number of students enrolled in the targeted

program is unclear. It appears that this program may be extremely small and the impact of any support provided limited. No funding is recommended.

Proposal #:	022EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	Oilfield Divers Monument Endowed Scholarship
Match Requested:	\$20,000

While program administrators are described, there is no mention of the faculty leading this program. The curriculum appears to be reasonable. As with proposal #021EWS-24, it is difficult to understand the scope of this program. Five students completed, with an 80% retention rate, so the total number engaged appears to be very small. No funding is recommended.

Proposal #:	023EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	Acadia Parish Police Jury Endowed Scholarship
Match Requested:	\$10,000

Success data are more complete than other proposals and appear to be reasonable. The discussion of retention as less than average for the institution and a need for student supports is commendable in facing a known issue and planning to address it. No description of program faculty is provided. Medical Assistant, which is a two- or three-star job, is included, but this proposal makes a good case for it to be added. Funding of the \$10,000 match is recommended.

Proposal #:	024EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	Excellence in Nursing Endowed Scholarship
Match Requested:	\$20,000

Exam pass rates for PN are strong. The RN pass rate is below average, which is cause for concern, though the college is working to address this. The employment rate is good, which is to be expected in these fields. Faculty information is minimal and would strengthen this proposal. Funding of the \$20,000 match is recommended.

Proposal #:	025EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	LHC Group/Myers Family Foundation Endowed Scholarship in Nursing and Home Health
Match Requested:	\$40,000

The need for graduates from these programs is clear and data on student retention and success are good. Very compelling data on student financial need were provided for these specific programs. Match of \$40,000 is recommended.

Proposal #:	026EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	Erroll C. Babineaux Endowed Scholarship in Emergency Medical Technology
Match Requested:	\$10,000

These programs have excellent pass rates, as well as solid enrollment and retention. Faculty credentials are not provided and would strengthen the proposal. Funding of the \$10,000 match is recommended.

Proposal #:	027EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	JC Moss Memorial Endowed Scholarship in Business
Match Requested:	\$20,000

SLCC's Business Program has significant numbers of enrollments and completers, though the proposal offers no details of curriculum and classes and only limited information on faculty qualifications. The retention rate in business administration program is lower than the institutional average, but the proposal does not provide plans for interventions to improve. General business majors perform better. Funding is recommended for the \$20,000 match requested.

Proposal #:	028EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	Construction Craft Endowment for Two-Year Workforce Scholarship
Match Requested:	\$20,000

Enrollments in SLCC's Construction Crafts programs are good and workforce need is evident. It is a concern, however, that retention in several of these is lower than college average, and possibly lower than the technical program average. No mention of what is being done to address lower retention in certain programs. Only one program below the four-star level is mentioned.

No details are provided relative to curriculum and classes. Funding of the \$20,000 match is recommended.

Proposal #:	029EWS-24
Submitting Campus:	South Louisiana Community College
Endowment Name:	Fern Mouton Moss Memorial Endowed Scholarship in Nursing
Match Requested:	\$20,000

This proposal is very similar to #024EWS-24, with the same assessment. Funding is recommended for the \$20,000 match requested.

Proposal #:	030EWS-24
Submitting Campus:	SOWELA Technical Community College
Endowment Name:	Nursing Endowments
Match Requested:	\$70,000

This proposal is well developed and provides essential data. SOWELA's Nursing Program has an excellent faculty, along with strong pass rates, retention, and employment outcomes. The workforce need is critical. Funding of the \$70,000 match is recommended.

APPENDIX C

**Endowed Two-Year Workforce Scholarships Subprogram
Proposals Submitted, FY 2023-24 Funding Cycle**

Proposal #	Institution	Scholarship Name	Match Requested
001EWS-24	Baton Rouge Community College	BRCC Construction Craft Two Year Workforce Endowed Scholarship	\$20,000
002EWS-24	Baton Rouge Community College	The Sammie W. and Shirley A. Cospers Endowed Scholarship; The Credit Bureau of Baton Rouge Foundation Endowed Scholarship; The Chancellor Willie E. Smith Sr. Scholarships I and II	\$100,000
003EWS-24	Baton Rouge Community College	Healthy Blue Endowed Scholarship in Health Sciences	\$20,000
004EWS-24	Bossier Parish Community College	Louisiana Healthcare Connections Endowed Workforce Scholarship in Allied Health	\$50,000
005EWS-24	Bossier Parish Community College	Citizens National Bank/John R. McConathy Endowed Workforce Scholarship in Business	\$40,000
006EWS-24	Bossier Parish Community College	John & Joanna Magale Endowed Workforce Scholarship in Allied Health	\$30,000
007EWS-24	Bossier Parish Community College	Louisiana State Contractor's Licensing Board (LCLB) Endowed Workforce Scholarship in Construction Crafts	\$20,000
008EWS-24	Delgado Community College	Delgado-Charity Alumni Endowed Two-Year Student Workforce Scholarship	\$150,000
009EWS-24	Delgado Community College	Healthy Blue Endowed Two-Year Student Workforce Scholarship in Allied Health	\$30,000
010EWS-24	Fletcher Technical Community College	Construction Education Trust and John Deere Two-Year Endowed Scholarship	\$20,000
011EWS-24	Louisiana Delta Community College	Barbara R. and Rickey L. Jones Health Science Scholarship	\$20,000
012EWS-24	Louisiana State University at Eunice	Leonard G. Fontenot Family Scholarship 2	\$10,000
013EWS-24	Northshore Technical Community College	CLECO Endowed Scholarship in Electric Line Technology	\$20,000
014EWS-24	Northshore Technical Community College	Jimmy Ryan, IV, Memorial Endowed Scholarship in Electrician	\$20,000
